

Want a new way to engage your students in learning?

Bring robotics to your classroom

And...

Sensors to your science class!

Come to a **free workshop** to learn about building robots and how to include them in your teaching.

- Build and program a robot creature
- Interact with other teachers who have already used robots.
- Advanced instruction available
- Educators only, no children
- **Funding Available!**

Also:

- *Science module on data collection and visualization*

Saturday, November 6, 2010

9:00am to 1:00pm

UMass Lowell

3rd Floor, Olsen Hall

Register by Oct. 30 at

robots@cs.uml.edu

Please include your name, school name, school location, subject, grade(s) and email address

Additional UMass Lowell Robotics Events:

Botfest and Botball:

Tutorials:

Botball -Friday, January 21
and Saturday, January 22

Botfest - Saturday Jan. 8

Tournament/Exhibition:

April 9, 2011

STREAM Workshop

Using Robots to teach STEM

End June, 2011 - TBA
